IT SKILLS

- **Programming Languages**: JavaScript (ES6+), Python
- **Frontend**: React.js, Redux, HTML5, CSS3, Bootstrap, Tailwind CSS,
- **Backend**: Node.js, Express.js, MongoDB, RESTful APIs
- **Database**: SQLite, MongoDB
- **Version Control**: Git, GitHub
- **Deployment**: Heroku, Netlify, vercel, Firebase, GitHub Pages
- **Other Technologies**: Firebase, Postman

BEHAVIOURAL SKILLS

- Problem-solving
- Innovation
- Quick Learner
- Time-management
- Communication

EDUCATION

- **2020-24 |B.Tech**
  Mechanical Engineering
  RGUKT IIIT, Ongole
  CGPA:8.5/10
- **2018-20 | Pre-University Course**
  College - RGUKT IIIT, Ongole
- CGPA:8.0/10
- **2018 | SSC**
  ZPH School, Rowthulapudi mandal
- CGPA:10/10

CAREER OBJECTIVE

Fresher with proficiency in HTML5, CSS3, JavaScript, and MERN Stack, seeking opportunities in web development. Skilled in building responsive web applications and backend services using Node.js and Express.js. Strong problem-solving abilities and a passion for learning new technologies. Eager to contribute and grow in a dynamic software development environment. Committed to applying academic knowledge and practical skills to contribute effectively to projects and achieve career goals.

PROJECTS

Book Store | MERN Stack

- Implemented a full-stack application using Node.js, Express.js, MongoDB with Mongoose, React, Vite, and Tailwind CSS.
- Created and deployed RESTful APIs to automate book inventory CRUD tasks, enhancing system efficiency by 50% and cutting data retrieval time by 35%.
- Organized backend routes with Express Router and configured CORS for secure data exchange.
- Enhanced user experience with modals and alerts for smooth interaction.

DataHub Website | MERN Stack

- Designed and implemented a secure data management system using Node.js, Express.js, MongoDB with Mongoose.
- Integrated authentication using JSON Web Tokens (JWT) with password hashing for enhanced security.
- Developed RESTful APIs for storing and querying user-generated data, including questions and answers.
- Designed a clean and intuitive frontend interface using Tailwind CSS

AI Content Generator | MERN Stack

- Engineered an advanced content generation platform using Node.js, Express.js, MongoDB with Mongoose, and ChatGPT AI APIs ,reduced manual content creation time by 60% and increased content output by 150%.
- Integrated middleware for error handling and authentication management.
- Implemented user authentication with JWT and password hashing for secure access.
- Designed subscription-based plans for content generation, allowing users to access additional features after a trial period.

Portfolio Website

- Developed a responsive portfolio website using React to showcase skills, projects, education, and contact information.
- Implemented a "like" button feature, with total likes displayed in the navbar, using JSON Server as the backend to manage and store likes.
- Integrated Web3 API for the contact form to handle user inquiries.
- Ensured a seamless user experience across various devices through responsive design practices.

CERTIFICATIONS

- HTML5, CSS3 and JavaScript Frontend development by Coursera course.
- HTML and CSS in Depth by Coursera course.
- React.js and Node.js by upgrade Bootcamp.
- Python for beginners by Udemy Course
